

YOUR ELECTRICAL & CONTROLS PARTNER

ELECTRICAL SYSTEMS INTEGRATION / PANEL BUILD

FMH IS A FULL SERVICE ELECTRICAL & CONTROL SYSTEM MANUFACTURER

FMH has built its wiring and assembly operation with the objective of being flexible. We are able to deliver volume OEM control panels with consistent quality, within budget and on schedule. Yet, we are capable and efficient in building low volume, complex custom control panels. FMH also has expertise with electrical controls integration to other systems such as: pneumatic, robotic, motion control, and mechanical assemblies.

EXTENSIVE SYSTEM INTEGRATION AND ENGINEERING SERVICES

Our in-house Engineering staff enables FMH to offer our customers support ranging from simple electrical design verification to high-end turnkey control systems design, documentation and programming. With a minimum of 17+ years in controls engineering, our staff has broad experience and capabilities, plus exposure to the latest products and industry trends.

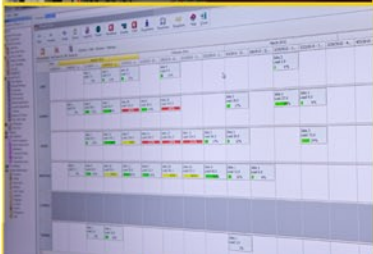

AWARD WINNING PARTNER SUPPORT

Our Supply Chain Team, customer specific Project Managers, and Production system enables FMH to easily tailor our services to each customer's needs. The goal of quality product delivered on time and on budget is attested to by our customer's own scorecards and awards. FMH maintains UL 508A and UL 913 Listings, as well as dual UL 508A and CSA Listings through ETL. FMH also holds ITAR certification with significant experience with Mil Spec Standards.

INTERNAL QUALITY CONTROL DEPARTMENT

Before any system is allowed to leave our facility, our Quality Control Department inspects each assembly to assure it meets stringent FMH standards and /or the customer's specific inspection procedures. FMH maintains ISO9001:2015 Compliant practices and systems. We have passed numerous customer audits of our manufacturing/quality control processes and procedures, including 3M, General Electric, Tetra Pak, Boston Scientific, Westinghouse, Graco, VEECO and MTS Systems.

TECHNOLOGY INVESTMENTS FOR COMPETITIVE ADVANTAGE & PARTNER BENEFIT

Our highly customized MRP system allows FMH to provide real time status on projects to our customers whenever it is requested. Customized reporting allows the FMH team to see potential issues, and implement a solution before the issue affects our customer's timeline or budget unexpectedly.

MORE THAN PANEL DESIGN AND BUILD

Through our wholly owned subsidiary, Unisource Assembly Corporation, we provide a full range of printed circuit board assemblies; surface mount, through hole, and mixed media PCB's. We also provide custom cable assemblies and wire harnesses to numerous customers in a variety of industries. Visit www.unisourceassembly.com to learn more.

At FMH we develop strong partnerships with OEM manufacturers and end-users in numerous industries both regionally and nationwide. For additional information visit www.fmh-corp.com or our [LinkedIn](#) Company Page. We look forward to the opportunity to work with you.

"FMH is a partner in the truest sense of the word. They participate in all facets of the design and engineering of our electronic control panels and are an extension of our Manufacturing Team"
